MEMORANDUM FOR THE RECORD

SUBJECT: Visitors from 544th (Offutt AFB)

1. I was advised by telecon from [ ] that [ ]  
[ ] from 544th were visiting NPIC this week.

2. In the course of their visit they had come down to his shop to look at the Dual Viewing Microstereoscope and the Twin Stage Comparator.

3. Vic also advised me that [ ] is one of the 544th personnel knowledgeable of the [ ] reproduction system modification for the Variscan RPV. Vic told me he had had considerable discussion in this regard with [ ] when he attended the Offutt PI course recently, and that [ ] had given him print samples and a detailed report about the [ ] equipment which he had turned over to [ ]

4. I will try to get appropriate RED personnel to talk to Major [ ] concerning the [ ] equipment sometime today.

5. I have subsequently learned that [ ] was brought in to help ESD--primarily in setting up and adjusting the DVM and the Twin Stage Comparator--and also that [ ] has probably talked with [ ] earlier this week. I also learned that they were referred to [ ] to view the equipment by [ ] the AF alternate member and Chairman of the Joint Procurement Subcommittee.

6. This situation suggests to me that we should work out an agreement with ESD to assure that RED is the primary spokesman for discussing any of their development products so that if any of these situations occur in the future ESD will have appropriate instructions for contacting RED and/or referring the inquirer to RED.

[ ]  
Special Assistant for Plans & Applications, RED
